Greetings to our families of classroom 1400 A, from Ms. Edna and Ms. Rebecca. We said goodbye to the Month of May and hello to June. It’s getting closer to summertime. We hope that everyone can get outside and enjoy this wonderful weather we’ve been having. I love to get outside and enjoy the fresh air and sunshine. Ms. Edna and I hope you are doing well and enjoy the activities on here and Classdojo.

- **Gross Motor Activity**: Play a game of Simon Says this can be done inside or even outside while getting some fresh air and sunshine. Another fun game that some of the children enjoyed was hopscotch. You can use chalk to draw on a sidewalk. Also, play a game of kick ball if you have space to play the game.

- **Art Activity**: Toilet paper tube flower prints. To do this activity you will need white paper, yellow, blue, pink, red, green and yellow paint and toilet paper roll tubes. Use the toilet paper tube and dip it in yellow paint to make the inside of the flower and with the other tubes you can bend to make it look almost like a triangle and use the other colors to make the pedals of the flower. See link [here](#).

- **Math Activity**: Play a game of number toy hunt. To do the activity you can use any type of paper and use a marker to write a number on each set. You can do 1-10 or 1-15. Then the children will go on a hunt for small toys and place the number of toys on the paper with the number on it. So, the paper with the number 2 they can put 2 lego pieces on it.

- **Reading**: It's always a good thing to take time out and limit screen time and read to your child. If they have a favorite book you and your child can read it together. You can ask questions like what they see on the page and what were the characters doing in the book. Read aloud book *Mouse’s First Summer*
