Greetings from Miss Beth and Miss Ashley during this difficult time. I wanted to let you know that we will be posting a newsletter every week that will include different activities related to Math, Science, Literacy, Art, and Motor Skills. We hope your families are staying healthy and safe.

**Gross Motor Activities**

The following website has many activities your child can do in the house

[Hands On As We Grow](#)

**Literacy Activities**

[Scholastic Learn At Home](#)

**Math Activities**

[Preschool Math Activities](#)

**Art Activities**

Our favorite site for art activities is [Pinterest](#). We use it all the time for activities in the classroom. You will never run out of ideas with this site.

[Facebook](#) is also another useful tool right now. Local aquariums such as [Mystic Aquarium](#) and [The Maritime Aquarium](#) have FBlive which is a wonderful for kids to learn and see the marine animals. Great science experience. Also the [Bronx Zoo](#) has live webcams on their website.

Please stay home, stay healthy, stay safe! Don’t forget to keep reading at least 15 minutes a day with your child. It’s a great way to relax before bed.

We miss you all very much!!
