We would like to send a warm hello and virtual hugs to all our students and families! We hope everyone is doing well and staying safe during these tough times. We truly miss you all and hope to see everyone soon! Here are a few ideas to keep the learning going while having fun at home.

- Read daily, have children draw a picture of their favorite part of the story!
- Create simple sensory bag with whatever you have at home (flour, hair gel, shaving cream, etc) fill a medium sized Ziploc bag and have children use their finger to make letters or numbers.
- Use crayons or different colored construction paper to have a color hunt, children can find different objects throughout the house that match the corresponding colors.
- Have children count utensils, cups, plates etc. during meal times.
- Create different sized ramps and have toys race, children can make predictions as to which one will be faster and why.
- "Haircut" station, use toilet paper rolls, draw a face, cut fringes on the top and let children practice cutting through giving "haircuts"
- Ideally children should spend at least 20 minutes a day outside, go walk around the block, playing a nature scavenger hunt (looking for birds, trees, colors), playing tag, or coloring with chalk or paper and crayon, tracing shadows.
- When the weather doesn’t permit or getting outside is not an option, YouTube has many options to help children burn some energy including: Cosmic Kids Yoga, Indoor Recess and some of our favorite songs from GoNoodle.

Here is some fun, safe and educational websites for families to explore

- Switchzoo
- Funbrain
- Readingecb

- Ms. Lesleh, Ms. Rosana
